Detailed Description of Proposed Change

Request to add third person perspective

Justification for Proposed Change

Mobile first-person shooters are notoriously difficult to use, with movement and camera controls that are frequently difficult to use. With Apex Legends Mobile allowing the use of third person camera perspectives, players can choose whether they prefer a perspective that is more akin to the standard experience or one that is more suited to the mobile platform.

Impacts of Change

Scope	<input checked="" type="checkbox"/> Increase	<input type="checkbox"/> Decrease	<input type="checkbox"/> Modify
Description: As a result of the addition of this feature, the scope will alter, but this change will be for the better.			
Grade	<input checked="" type="checkbox"/> Increase	<input type="checkbox"/> Decrease	<input type="checkbox"/> Modify
Description: Third-person perspective will improve the project's quality because it will encourage more players to play the game on mobile devices. First person view in the current game version makes it difficult to play on a mobile device.
